

BRITISH RAILWAYS in NORTHUMBERLAND

The following black and white photographs of railways in Northumberland are available from Hugh Davies, Apartment 8, Caesar's Place, Ockford Road, Godalming, Surrey, GU7 1QW. For current prices and details of many other lists available please see Leaflet PL. Please always send a large, stamped, addressed envelope and 40p per list. Stamps are acceptable. Postcard size prints are normally available from stock. Larger size prints are only made against specific orders.

All photographs are taken by Hugh Davies and other members of the Railway Enthusiasts' Club (the REC) between 1946 and 1968 and the great majority have never been published. Indeed we shall be continuing to identify negatives, many thousands of them, over the next few years - negatives that have never before been printed, let alone published - so if you don't see what you want here, please keep in touch. What you require may feature in a future amendment or a new subject list.

The majority of views are only available in black and white, but views with reference numbers with a W or MHW prefix are also available as 6"x 4" in colour.

This list and further information is available on our website www.photosfromthefifties.co.uk

3661	North Eastern Region poster "This station is at your service": appears to be in situ at North Shields	
3663	Exterior (road-side) view of the original (1847) station at Tynemouth. After the new Tynemouth station opened in 1882 the old station was converted into two houses for railway employees	
3750	Tyneside EMU at North Shields	

7296A	Class Q6 0-8-0 63362 with a train of loaded mineral hoppers on the branch heading for West Blyth staithes	Spring 1965
7296B	Class J27 0-6-0 65815 and goods brake van passing Cambois signal box, from which this photo was taken. The loco and brake van are headed for North Blyth loco, whilst another J27 in the background is on the West Blyth Staithes line	Spring 1965
7296C	Class J27 0-6-0 65815 light engine on the West Blyth Staithes line	Spring 1965
7306A	Former NER class J72 0-6-0T 59 (Service Stock numbering) $\frac{3}{4}$ front view inside a round-house type shed (possibly North Blyth)	June 1965
7306B	Class J27 0-6-0 65879, $\frac{3}{4}$ rear view heading a train of mineral hoppers along the branch from Cambois to West Blyth staithes, with North Blyth power station as a backdrop	June 1965
B264/6	Steam loco and goods brake van crossing the viaduct at Bedlington; distant view showing almost all of the viaduct	
B264/7	Class Q6 2-8-0 63362 with coal train at Winning Junction; head-on view	
B264/8	Class J27 0-6-0 65855 with loaded coal train at Winning Junction; $\frac{3}{4}$ view of whole train	
B264/9	Class J27 0-6-0 65789 heading a train of mineral hoppers at unidentified junction in the Blyth area of Northumberland; good $\frac{3}{4}$ view of loco; wagons largely out of sight round the curve	
B264/10	Class J27 0-6-0 65855 standing next to Winning signal box near North Blyth; the loco is coupled to a brake van; another loco stands on the same line (in the direction of North Blyth) in the distance, beyond the junction signals	
B264/11	BR class 9F 2-10-0 92061 heads a loaded mineral train at unidentified double track location in the area north of the Tyne; near head-on view	
B264/12	K1 class 2-6-0 62020 tender-first with loaded mineral train at Winning Junction near North Blyth; $\frac{3}{4}$ view of loco and some of the train	
B265/1	View from Winning signal box of class J27 0-6-0 65860 on a ballast train standing nearby whilst ballast is spread over the tracks leading to a colliery (latter visible in distance); main running lines on left of picture	
B265/2	Unidentified 0-6-0 heading loaded coal train near Blyth; $\frac{3}{4}$ view of whole train	
B265/3	Class J27 0-6-0 65847 waiting at signals near Blyth; unidentified loco and brake van in distance, adjacent to colliery and sidings; 65847 is viewed $\frac{3}{4}$ from tender end, from signal box	
B265/4	Good view of class J27 0-6-0 65811 with lengthy train of mineral wagons on double-track line in the Blyth area; semaphore signals indicate that it is about to turn of the main line into sidings; there is another loco at the rear of the train, providing assistance (see B265/5)	
B265/5	Class Q6 0-6-0 63362 with brake van; this is the loco at the rear of the train in B265/4 which has dropped away from the train it has been banking; the signals indicate that, whilst the train has turned off into the sidings, 63362 and brake van is to continue along the main line	

B265/6	BR class 9F 2-10-0 92065 heading a loaded mineral train on a double-track line at unidentified location in cutting; viewed from above, $\frac{3}{4}$ view	
B265/7	The same loco and train as in B265/8 have passed the photographer and are now going away from the camera

YOUR HELP WILL BE GREATLY APPRECIATED -- If you can identify the locations in unidentified pictures in any of my lists (including the above) do please write and let me know. If you are the first with the correct information you will be credited with the price of the print that you purchased. All these pictures were taken about 50 years ago and regrettably we didn't keep notes of all travels at the time. So by helping with identifications you will not just be helping me but all the other users of this service. Many thanks.
