

IRISH RAILWAYS AND TRAMWAYS: 5'3" GAUGE

(former GNR(I), UTA and NCC LINES and other lines North of the Border)

The following black and white photographs of railways in the above areas are available from Hugh Davies, Apartment 8, Caesar's Place, Ockford Road, Godalming, Surrey, GU7 1QW. For current prices and details of many other lists available please see Leaflet PL. Please always send a large, stamped, addressed envelope and 40p per list. Stamps are acceptable. Postcard size prints are normally available from stock. Larger size prints are only made against specific orders.

All photographs are taken by Hugh Davies and other members of the Railway Enthusiasts' Club (the REC) between 1946 and 1968 and the great majority have never been published. Indeed we shall be continuing to identify negatives, many thousands of them, over the next few years - negatives that have never before been printed, let alone published - so if you don't see what you want here, please keep in touch. What you require may feature in a future amendment or a new subject list.

This list and further information is available on our website www.photosfromthefifties.co.uk

New additions in this issue are highlighted in red, and tagged with '#' to aid searching

R0645 Ex-LMS(NCC) diesel mechanical railcar No.4 at York Road station, Belfast. It is in final UTA all-over green livery with a couple of straw-coloured lines. The ends were a shade even paler than the straw lining, i.e. almost white. The wasp stripes were black and there were the heraldic UTA coat of arms on the sides. No.4 was one of a pair of identical railcars built in the 1930's for the NCC, the other being No.2. No.4 was built in 1938, No.3 in 1936. Two other similar, but not identical, railcars were also built before these two, Nos.1 and 2. No.4 was destroyed by fire in 1968, a couple of years after this photograph was taken

BELFAST AND COUNTY DOWN SECTION

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
3132	Ballymacarrett Junction signal box nameboard in situ	
3143	Bangor-bound MED railcar passing Victoria Park Halt	
7116A	View of Saintfield station, on the former Belfast and County Down main line, after closure: former signal cabin on left, goods shed on right. Viewed from the site of the level crossing	
7116B	Ballygrainey station, on the former BCDR branch to Donaghadee, viewed from overbridge after closure. Buildings appear to be in private occupation, trackbed overgrown	
7117A	View looking along the platform at the former BCDR terminus at Ballynahinch, looking towards the buffer stops. The trackbed is occupied by buses, including UTA Leyland Royal Tiger 8963 (OZ 836). The building was demolished in 2001	
7117B	Ballynahinch Junction looking from the road side of the main building. Discernible is the base of the cabin, to the right, with the base of the water tower away to the right. Belfast was to the right, Newcastle, etc., to the left	
7126A	Dundrum, looking along the trackbed of the line towards Newcastle: remains of former passenger station (outline only of platform visible) on right, former goods warehouse on left	
7126B	Ardglass: former passenger station (shorn of its canopy) on left, goods shed centre right	
7153	Saintfield station, exterior view from road, showing former station house in private occupation, station building and former signalbox: after closure, but all buildings in good condition	
7155	Ballynoe, one of the two intermediate stations on the Ardglass branch: track lifted	
7208	Killough, the other intermediate station on the Ardglass branch. Track removed but all buildings and platform still extant, also goods shed and most of loading gauge	
7324A	Frontage and forecourt of Downpatrick station (former Belfast & County Down Railway), seen long after closure, a modern bus garage has been built on part of the railway formation beyond and a variety of UTA buses is scattered about the yard in the distance	
7324B	Downpatrick loop platform, viewed looking north along the abandoned trackbed. The line to Belfast passed to the left of the platform, the line to Downpatrick to the right. This was one of the handful of stations in these islands with no road access and intended for interchange purposes only, hence the lack of buildings!	

- 7326 Former Belfast and County Down Railway signal cabin at Saintfield, after closure of the railway. The building is of composite stone, brick and timber construction, with unusual bargeboards, and is in excellent condition. A uniformed man is standing on the stairway outside the operating floor door, holding a vintage handlamp!

YOUR HELP WILL BE GREATLY APPRECIATED -- If you can identify the locations in unidentified pictures in any of my lists (including the above) do please write and let me know. If you are the first with the correct information you will be credited with the price of the print that you purchased. All these pictures were taken about 50 years ago and regrettably we didn't keep notes of all travels at the time. So by helping with identifications you will not just be helping me but all the other users of this service. Many thanks.
