

NARROW GAUGE RAILWAYS in GREAT BRITAIN

The following black and white photographs of narrow gauge railways in Great Britain are available from Hugh Davies, Apartment 8, Caesar's Place, Ockford Road, Godalming, Surrey GU7 1QW. For current prices and details of many other lists available please see booklet PL. Please always send a large, stamped, addressed envelope and 40p per list. Stamps are acceptable. Postcard size prints are normally available from stock. Larger size prints are only made against specific orders.

All photographs are taken by Hugh Davies and other members of the Railway Enthusiasts' Club (the REC) between 1946 and 1968 and the great majority have never been published. Indeed we shall be continuing to identify negatives, many thousands of them, over the next few years - negatives that have never before been printed, let alone published - so if you don't see what you want here, please keep in touch. What you require may feature in a future amendment or a new subject list.

This list and further information is available on our website www.photosfromthefifties.co.uk

New additions in this issue are highlighted in red, and tagged with '#' to aid searching

C246	0-4-2ST Quintus out of service with broken axle; $\frac{3}{4}$ rear view	14 Sept 1956
R0004	Transhipment sheds at Furzebrook, viewed from the approach tracks. Of interest is the wagon which is a side-tipper with the number 94 on the end. Now 94 is in the middle of a run of end-tippers and wagons were not numbered on their ends, so the probability is that either 94 was rebuilt from an end tipper to a side-tip wagon (the bodies were almost as wide as they were long anyway) or 94 had already been withdrawn and cannibalised when this picture was taken in 1953. It is known to have been working in 1952 as it appears in weighbridge records, but does not figure in a list compiled by WJK Davies in 1955	1953

YOUR HELP WILL BE GREATLY APPRECIATED -- If you can identify the locations in unidentified pictures in any of my lists (including the above) do please write and let me know. If you

are the first with the correct information you will be credited with the price of the print that you purchased. All these pictures were taken about 50 years ago and regrettably we didn't keep notes of all travels at the time. So by helping with identifications you will not just be helping me but all the other users of this service. Many thanks.
